

**Seminars for Employees on:
The Agreement on the Free Movement of Persons between Switzerland and the EU,
and its Effect on Employee Benefits in Switzerland**

Does your company here in Switzerland employ workers originating from abroad? Have you already been asked what effect the Swiss - EU/EFTA treaties will have on the employee benefits of personnel from other countries in Europe?

You can clear away any confusion by arranging a seminar for your international personnel that explains exactly how the Agreement on the Free Movement of Persons between Switzerland and the EU affects their social security benefits. Your staff will also learn about the differences between the rights of EU/EFTA citizens and those from other countries. ASN's informative employee seminars cover these topics from the Swiss angle.
